

How do I set the Daily Standing Charge?

- Place the Programming Card on the front of the meter where it says “Hold Card Here” until the LCD display shows the following display:

- Now remove the Programming Card and press the **RED** Button until you see the display for Standing Charge. Depending on whether your meter is set to use a Single Rate Tariff or a Two Rate Tariff the number of presses will differ
 - Single Rate - you need to press 29 times
 - Two Rate - then you need to press 34 times

- To change the amount use the **BLUE** button to change the number of the flashing digit and then the **RED** button to go to the next digit to the right
- Once you have set the DAILY amount then press the **RED** button continually until you see the END screen
