

RFID PREPAYMENT CARD METER

The MP21 RFID is a new prepayment card electricity meter that has been designed to replace the reconditioned Ampy 5028A and 5188 meters that are currently available. This is the only MID certified card prepayment meter available in today's market. Using RFID technology (Radio-frequency identification), the credit from the prepayment cards is transferred without the requirement to insert the card. This is a modern and ideal solution for Caravan Parks, Marinas and Rental Property.
