

NEW LCD COIN TIMER

Height: 210mm Width: 280mm Depth: 95mm

FEATURES

- 100A direct connected
- Built in timer 0-99 Hours
- MID Certified
- Two coin values accepted (Multiple currency and token options)
- Coin rejection chute

TECHNICAL DATA

Electrical	Voltage	Nominal voltage	220V-240V	
		Maximum	276V	
		Voltage withstand	415V (maximum 6 hours)	
	Frequency	Nominal frequency	50Hz	
		Frequency variation	±5%	
		Current	Current range	20-100 Amp
		Maximum (Imax)	100A (140% overcurrent)	
		Metrology	Accuracy	Class B (1%), to EN50470 1-3
		Environmental	Temperature range	-25°C to +55°C
Physical		Main terminal size	8.2 mm diameter
